THE TEAM

STUDENTS:

Andrei Angelescu 11th E

Andrei Tache-Codreanu, 12th F

Mihnea Edu Dan , 10th C

TEACHERS:

Corina Vint (principal)

Carmen Minca

Andreea Dumitru

Carmen Plesa

Iulia Manicea

October 19th 2014 was the last day spent by the contestants at “Tudor Vianu” National High school of Computer Science.

The time has passed by very quickly, so here we are, drawing the final conclusions of this year's edition of RMS. Today, the stress that students experienced during the previous two days of contest turned into the anxiety of finding out the results and occupying an honourable place on the stage at the closing ceremony.

The weather was perfect for a relaxing Sunday spent the right way. In order to make their last day here a memorable one, the Romanian guides filled their group's morning schedule with a pleasant visit of the Palace of Parliament. The contestants were all surprised to discover that this little trip made quite an impression on the foreign guests, who expressed their delight on several occasions. Some of them even acknowledged that there

are no historical monuments of this magnitude in their countries, which of course, made us both proud and happy that we had the chance to involve them in this activity.

Soon after the visit to the “People’s House”, the guides led them to their lodgings where they had a delightful lunch. Afterwards, the students returned to their rooms to rest for a while and to sum up the experiences earned here leading to conversations which lasted until 5 p.m.

The closing ceremony of the 4th edition of the Romanian Master of Physics began at six o'clock. Hosted by Malina Achinca and Rares Popescu, it was attended by all the participants and their guides, but also by their team leaders and some of Tudor Vianu's teachers.

After the determined speeches of " Tudor Vianu" National High school of Computer Science most appreciated principals, Corina Viņț and Dan Ciupercă, Professor Stefan Antohe Phd, president of the scientific committee and the dean of the Faculty of Physics at the University of Bucharest, offered the awards to the participants, who made their way to the stage in rounds of applause. Various joyful faces, screams of joy and laughter marked the end of the ceremony. Besides groups taking photos, team leaders changing ideas and guides establishing friendships with the participants, the organizers thanked to each other and just observed their wonderful contribution brought to our high school and to our country.

And so, another edition of the Romanian Master of Informatics and Physics has ended. As we readjust our schedules feeling mostly sad that this experience is over, we look forward to greeting our future friends next year. See you in 2015!
