

CHEMICAL BONDS, MOLECULES AND COMPOUNDS

1. Introduction: outline of the lesson
2. Revision of the previous lesson
3. Pre-activity: answering questions
4. Presentation of the topic using the PowerPoint
5. Testing understanding – online tests
6. Conclusion: summary of the lesson

- add 3.
1. What is the chemical bond?
 2. What is the function of the chemical bond?
 3. What types of chemical bonds do you know?

- add 5. Online tests:
