

ACTIVITY HIDDEN ART

- This is a grammar and vocabulary **review** activity (it is related to the world of art)

- This is the way it works:

- The teacher asks some questions so that students use known grammar in their answers (some will be more difficult than others).
- Every time a student answers a question correctly they can click once on a slide to uncover part of a piece of art (or twice if the question is difficult). This will continue until a student guesses the type of art represented (portrait, sketch, etc.)
- At the end of the activity the teacher and the students will do an **assessment** of the results.
