using System.Collections.Generic;
using System.Linq;
using System.Text;

namespace ConsoleApplication1
{
    class Program
    {
        struct elev
        {
            public string nume;
            public double n1;
            public double n2 ;
            public double mg ;
        }
        static void Main(string[] args)
        {
